Jarman Liu

Brooklyn, NY 11206 | 917-519-5535 | jarman124@gmail.com

Objective

Seeking a job opportunity as a Software Engineer. I am a dedicated and reliable individual with skills and expertise in maintenance of software programming.

Education

MASTER OF SCIENCE | MAY 2020 | NEW YORK INSTITUTE OF TECHNOLOGY

· NYIT's Accelerated Masters program
· Major: Computer Science

BACHELOR OF SCIENCE | MAY 2019 | NEW YORK INSTITUTE OF TECHNOLOGY

· Major: Computer Science

Skills

LANGUAGES

· HTML, CSS, MySQL, JavaScript (React & React Native), Python, Java

Experience

DEVELOPER/MANAGER/SUPPORT | TRANTONLLC | WINTER 2018 – CURRENT

· Managed and provided weekly detailed drop information on collectibles for members.
· Developed monitors for members that support 10 sites that alerts members on any new releases or restocks. Maintained the monitors to be in line with site changes.
· Handles 10+ daily support tickets, with duties including helping customers with billing information, retrieving customer data, and cancelling services.

STUDENT INSTRUCTOR | NYIT | FALL 2016

· Built relationships with professor and students to create a unity of understanding of where they need to before the class.
· Provided bi-weekly sessions for 7 weeks where other students can come learn if needed and resolve any problems they may have.

Projects

ITEMFINDR | SPRING 2020

· Built a mobile app that scans the UPC of items to help the user find the item locally or online. App supports up to 4 stores. App also takes into consideration the user's allergies and notifies users of an item containing an allergy. (React Native, Firebase, Python, Flask)

DISCORD/SLACK MONITORS | WINTER 2019 – SPRING 2020

· Developed a monitor that notifies members for collectibles that have been released or restocked.
· Supports over 10 sites and monitors over 200 individual products for restocks. (Python and Java)

STUDBUD | WINTER 2019

· Developed the front end for a platform that pairs students with other students, also referred to as mentors, based on class history and interests. (React)
